

washington**united**
for marriage

Dear Supporter of Washington United for Marriage,

Working together, we passed a landmark marriage equality bill in Olympia and became the seventh state in the nation to legalize marriage for loving, committed same-sex couples. Our opponents are determined to roll back this progress. They have already filed a referendum in the hopes of repealing marriage equality bill this fall.

We can win, but it will take us all working together, joining the cause and supporting one another as we fight to protect this hard earned victory. Thank you for stepping up and getting engaged.

We have compiled this kit to arm you with the materials and tools need to organize your community and help us build a marriage majority in Washington State. You will find: visibility materials, endorsement forms, talking points, and other helpful items for your campaign.

We also have a talented field and outreach team on board ready to help you help us. If you have any questions, concerns or unique needs, you are welcome to reach out to us at any time.

Your work within the community you live in, know, and love is absolutely essential to our success. We are going to make history in Washington State by becoming the first state in the nation to uphold marriage equality at the ballot box. I look forward to celebrating with you in November. Until then, let's get to work.

Sincerely,

Zach Silk
Campaign Manager
